STEM school promo slide show:

<http://bit.ly/nkwG7l>

At-A-Glance Comic Tutorial about QR (Quick Response) Codes:

<http://bit.ly/ouoHfH>

Gwyneth Jones has created many At-A-Glance tutorials for your use.

QR codes + student's book trailers =
Awesome! I made QR codes for student's
book trailers and put them on book spines.
pic.twitter.com/jy9ziBRl

Search for a free Barcode Scanner for your Smart phone. How could you use QR codes to promote something?

To make QR codes, go to <https://bitly.com/>

Shorten your URL, then click on the words InfoPage+ to get the QR code.

Copy it and paste it where you want it. More details on wiki.

2. Getting Started with the Resources for Standards Instruction:

Adams12 Digital Literacy Skills Continuum - Link to the AD12 Digital Literacy wiki

<http://ad12digitalliteracy.wikispaces.com/>

Content Area Standards – Access templates and standards from the Adams12 website,
left side of screen click on Teaching/Learning Cycle icon,
then at top of page click Colorado Academic Standards Pilot
then Standards link on left side of screen

See each grade unit .pdf

*You will not be able to edit these documents to add Info Lit & Tech standards link .

Van Meter Community Schools (Iowa) Library Science Curriculum: A resource for grade level skills in these 4 areas: Digital Citizenship, Technology, Information Literacy, and Love of Reading. (in my FiveStarSchools google docs). Shannon Miller, Librarian.

<https://sites.google.com/a/vmbulldogs.com/van-meter-technology/important-information>

4. Making Connections

What is Digital Literacy? Powerpoint slides to help us get on the same bus!

Power Point slides to help you understand the task and class objective.....

We are working on developing Scope and Sequence for each of the skills at particular grade levels AND we want to put the Digital Skills into the Content Area standards work.

Take all the time you need to understand the task and the resources available to you.

How will your group get started? What can you reasonably accomplish in our next class time?

5. Final Inspiration: What Do You Love? From Google
